MUSC's Vision: *Leading Health Innovation for the Lives We Touch*

MUSC Overview

“Leading Health Innovation for the Lives We Touch”

MUSC Is South Carolina’s Leading Academic Medical Center

- 1. Patient Care:** US News ranked MUSC #1 hospital in SC; statewide tertiary care; over 1 million patient visits/year.
- 2. Education:** Graduate and professional programs in every dimension of health care (3,000 students).
- 3. Research:** Leads the state in biomedical research funding with more than \$259 million in extramural grant funding.

MUSC Impact

MUSC's Impact:

- One of the largest employers in South Carolina with over 13,000 employees
- Annual \$3.8 billion economic impact in the Charleston Metro Area

Statewide Health Innovation (\$7.5 million new recurring funds)

- Mental and behavioral health (including opioid epidemic education and outreach)
- Children's health
- Cancer
- Chronic disease

Note: All of the above would focus on rural health care and partnerships with hospitals, clinics, and other universities.

New Recurring Appropriations Request FY2017-18

Request	Decision Package	Description	Amount
Statewide Health Innovation	#11411	New recurring state funds requested to innovate ways to deliver new methods, products, technologies, and medications. Innovations will focus on the state's areas of need in rural, mental, and children's health, as well as cancer, thereby delivering the most meaningful impact to some of the most vulnerable populations.	\$7,500,000

THANK YOU!
